PROJECT X

PROJECTX is new project under the XRPL ledger. Project X believes that investment should be plain and simple. ProjectX will be releasing two (2) tokens

PROJECTX and **PROJECTXNFT** (*more details will be shared for this token but for sure holder of this projectxnft will get NFT once minting will be available in a 1:1 ratio*).

KEY FACTOR'S THAT CONTRIBUTES TO THE GROWTH OF **PROJECT X**

SUPPLY - Supply will be at 888,888,888 does it represents as a lucky number.

PRESALE - Presale will commence once official Trustline are publish. 50% (444,444,444) of the token supply will be on sale at a price of **0.002** per token. Presaler's will get extra bonus token once they will not sell their token for 7 days.

AIRDROP - 2 Airdrops that will be will be conducted one for token holders and for all trustline. Details regarding the Airdrop and snapshot will be shared after presale concludes.

DEVELOPMENT - Why development? As stated above that Project X will be releasing 2 tokens. Development funds will then be use to acquire necessary technology and hire professionals (*ProjectX will hire Moderators ,Artist ,etc*) so that project X can deliver its goals to investors.

REWARD AND GIVEAWAYS - As simple as it says , this will be use to reward deserving holders and investors for their early support of the project. This will also include Twitter giveaways , Influencer Collaboration, Youtuber's Collaboration and Advertisements, Twitter Games , etc.

DEVELOPER - Why Developer's? well its simple, developers that are compensated well for their hard work must will always stay loyal and dedicated to the project.

CHARITY - Why Charity Again? As we rise to the top we should not forget to help other's in need. Details regarding this will be shared in the future will full transparency.

WHAT IS INVESTMENT ?

An investment is an asset or item acquired with the goal of generating income or appreciation.

WHAT IS NFT ?

A non-fungible token (NFT) is a unique and non-interchangeable unit of data stored on a blockchain, a form of digital ledger. NFTs can be associated with reproducible digital files such as photos, videos, and audio. NFTs use a digital ledger to provide a public certificate of authenticity or proof of ownership, but do not restrict the sharing or copying of the underlying digital files. The lack of interchangeability (fungibility) distinguishes NFTs from blockchain cryptocurrencies, such as Bitcoin.

WHY NFT'S ?

As the world grows fast thus also the technology, not long ago pictures, music and other digital arts are way to unappreciated and undervalued. But today as mass adaptation rises, NFTs are now considered valuable assets. Now, you can say that I'm digitally rich.

PROJECTX Aims to create simple NFTs but punches superb uniqueness. These NFTs will have serial numbers, certificate of ownership, and other properties that will make the NFTs rare and unique thus making it a true collectible. About **888 TO - 8888** unique NFTs will be created. As for the initial value of the NFTs will be decided by the community. About **8 TO 88** NFTs will be used as reward for Official events and games for the community.

PROJECT X will let the community decide the price of the NFTs because NFTs will just be an Art with no value if the community will not value it. Simple. Just like Traditional Money they will be just regular metal if the government and the people will not value on it.

PROJECT X

Development will Commence
in Phases

PHASE I

Project realization
Community and social media
Whitepaper V1.1
Token and Trustline Creation

PHASE II

Presale
Official Launch
Airdrop for Holders
Airdrop for all Trustline
Twitter Rewards and Giveaways

PHASE III

Influencer and Youtuber collaboration
Advertisements

PHASE IV

ProjectXNFT Initial Reveal
